

FIBERBASE MIX

Feed with fiber for **healthy horses full of vitality**

Cavalor FiberBase Mix is an all-round muesli with fiber, designed to provide a balanced and versatile nutritional foundation for a wide range of horses. This oat-free formula combines flaked cereals for steady energy with long-stem fiber and added probiotics to support a healthy digestive system. Cavalor FiberBase Mix is a Level 1 feed, ideal for horses in light to moderate work.

No oats

Oats are a rapidly digestible energy source that can contribute to a more reactive temperament in some horses. This **whole oat-free formula** provides a more **gradual release of energy** to help **maintain focus** and manageability while still supporting exercise needs.

With flaked cereals

Steam flaking **improves the digestibility** of cereals by making starch and nutrients more accessible to digestive enzymes. This allows horses to utilize nutrients and energy more efficiently than from unprocessed grains while supporting **optimal digestive function**.

With fiber

Fiber is essential for maintaining **healthy digestive function** in horses by supporting normal gut motility and the natural digestive process. The inclusion of **long-stem fiber** also encourages chewing and saliva production, helps slow feed intake, and supports the horse's **natural feeding behavior**.

HARMONY

Advice

Feed as you need

The foundation of good nutrition for your horse is adequate forage and access to fresh drinking water. Supplement this base with a concentrate or a balancer depending on the individual nutritional needs of the horse. Use supplements to fine tune your feeding program.

Feeding recommendations for Cavalor Fiberbase Mix

We recommend a minimum of 0.4 lbs to a maximum of 0.65 lbs per 100 lbs body weight per day. For a 1000 lbs horse this means a minimum of 4 lbs and a maximum of 6.5 lbs per day. Divide the concentrate feed over several portions per day, preferably after feeding forage. The foundation of good nutrition for your horse is adequate forage and access to fresh drinking water.

TIP

Not all feed scoops are the same size. Weigh the contents of your feed scoop so that you know exactly how much your horse is getting.

Ingredient Statement

Dehydrated Alfalfa Pellets | Soybean Hulls | Wheat Middlings | Barley Flakes | Rice Bran | Oat Hulls | Suncured Chopped Alfalfa | Molasses | Canola meal | Corn Flakes | Soybean Oil | Soybean meal | Peas | Salt | Calcium Carbonate | Yeast Culture | Vitamin A Supplement | Vitamin D3 Supplement | Vitamin E Supplement | Choline Chloride | Zinc Sulfate | Manganese Sulfate | Iron Sulfate | Copper Sulfate | Zinc Glycine Complex | Manganese Glycine Complex | Copper Glycine Complex | Calcium Iodate | Cobalt Carbonate | Sodium Selenite | Biotin | Tocopherols and Citric Acid (preservatives)
